"If You Want To Become An Expert, Learn From Expert"

**AFFILIATED WITH CADTECH**

**ArtCAM**

*Group of Graphics Artists*

Faculty : Experience : 28 Yrs. in CAD/CAM  
Qualification : Phd.  
Already trained more than 2500 ArtCAM Students

**Institute for CAD/CAM & Graphics**

## Syllabus ArtCAM

Learn With  
CAD Expert Dr Nishat

### ArtCAM Ver. 2018

#### Artcam Interface

Introduction to ArtCAM Interface, Start panel, Project Panel, Tool Path, Layers, 2d and 3d Windows. How to Start Designing in ArtCAM, What is tool path

#### Creating the Models

Starting with a new model, Create a model from files, Basic Settings, File organisation.

#### 2 d Projects

All about the 2dimensional projects. using Bitmap Layers, How to Import Artwork from bitmap, About Colors, All about tool bars, objects using tool bars, Create Vectors, Vector to bitmap conversion, Moving, Inserting, and aligning nodes.

Vector Create, close, Merge, Node Editing, filleting, wrap etc.  
Relief import, export, calculate, Sculpt etc.  
Vector doctor

#### Tool Path

What is tool path, Creating a tool path, tool path simulation Creating, resetting, deleting, tool path simulation, Creating relief layer from tool path simulation

#### Light and Material

Using material realistic views, and lighting on created material and objects.

#### 3 dimensional Projects

3D Leaf and flower designing, special figures using artcam 3d tools like rail, 2 way rail, sweep, extrude, merge, turn, etc. how to make Complicated relief.

How to make god and other 3d work.

**Online Duration 21 Days**
